Put Us to Work on Your Network

federated ®
SERVICE SOLUTIONS

Deploying **fast** and **local** across the globe.

We are a single source, global provider of IT solutions for the retail, hospitality, manufacturing, communications, food service, construction, and financial service industries. Our flexible, experienced team can deliver in existing environments, new construction and remodels.
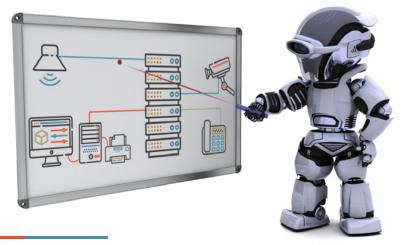

PROOF OF SUCCESS

Specialty Design and Delivery

Designed, configured, and installed new access points and security appliances in **950 unique environments** for a global auto manufacturer.

Cost Savings

Saved 40% on deployments of music and paging for a nationwide retail company by providing competitive material, design and installation.

Rapid Rollouts

Deployed over 60,000 thin clients in five and a half months in 1,750 locations across the U.S. and Canada.

Flexible and Creative Solutions

Replaced 1,700 workstations throughout the U.S. for a home improvement retailer and deployed stocked trucks to pull fiber on site to cover unanticipated needs.

OUR CAPABILITIES

Infrastructure Cabling

Data (category, fiber), voice, access control, CCTV, audio, and video
